

Abdulrhman Saad

Objective

My academic major is accounting, and I have a passion for programming, so I became a programmer. My programming skills are numerous, most notably JavaScript (react, node), PHP(Laravel), python, dart, Linux, and more,

Currently interested in data analysis, machine learning, and artificial intelligence,

I am interested in self-education and I'm working hard to achieve my goals and the goals of people who trust me, I am loyal to everyone who trusts me
